

SUMMER PROGRAMS

Colleges offer summer programs such as camps, seminars and for-credit courses to high school students. This can be a nice way for students to "try-out" a particular college, or a particular major to see if it is for them. Below is a listing of the summer programs we have been notified of. Don't see your school represented? Try visiting their website and searching on "Summer Programs."

Subject Area/Description	Location	Program Dates	For Information Contact
