

BISHOP LUERS HIGH SCHOOL

Canvas is a powerful tool used by Bishop Luers Catholic High School. It is a way to simplify communication between student, teacher and parents. The goal of Canvas is to connect all the tools students and teachers will use in one location, making teaching and learning easier.

In Canvas, the observer (parent) role can be used to enroll parents who would like to monitor their child in a Canvas course. Observers have limited permissions that allow them to see what is going on in a course without interrupting the flow of daily course communication. Like students, observers cannot view a course until it is published, and the course has started.

Observers are bound to the same prerequisites, requirements, lock dates, etc. as the student they are observing.
